Sight is the most practical of the senses in giving life and endurance to the capabilities and resources of an advertiser. Who does not remember longer and more vividly, when a "word" strikes him, what he has seen than what he has read or heard of?

Every advertiser in the Supplement receives gratis impressions of the sheet on which his industry is depicted. These may be mounted and used to take the place of the lithographed graphic wall-calendar; advertisements have had to endure so long, and the Diamond Year Supplements appear, there is no other means of well-decorative advertising.
